### Testimonials

Float Glass Design produced a wonderful piece of original artwork which is now on display in our reception area and it has received numerous positive comments from both staff and clients alike.

In fact we have been so pleased with the work already commissioned that I have

Subsequently commissioned some glass panels for my own office/consulting room.

Dr. Carole Gilling-Smith - Medical Director      The Agora gynaecology & Fertility Centre

Just a short note to formally thank you on behalf of the Trust Board for providing the Audrey Emerton Building with such a stunning, wonderful art installation within the foyer area.

We have had many, many compliments concerning the new artwork that you have both provided and I know that it is very much a talking point with everyone who visit's the building.

Congratulations and well done

The Trust is most grateful for the time, effort and commitment that you gave to this wonderful piece of artwork which has truly created a wonderful image when entering the new Education Centre.

Lee M. Soden

Director of Facilities & Capital Development NHS Trust Brighton

Homeostasis.

The majestically medical glass disc sculpture gives the reception area in the Audrey Emerton Building gravitas and splendour.

Jenifer Bess Sharpstone Chair, Arts Advisory Group, Brighton & Sussex University Hospital Trust.

The Park Centre for Breast Care

Float Glass's delicate but robust hangings with images taken from the local trees and gold and bronze leaf captured between glass are soothing , intriguing and reflective pieces

that enhance the atmosphere for patients and staff alike.

Jenifer Bess Sharpstone Chair, Arts Advisory Group, Brighton & Sussex University Hospital Trust.
